### About the Don Clifton Strengths-Based Culture Award

Don Clifton, professor of educational psychology at the University of Nebraska-Lincoln, invented the CliftonStrengths assessment, which helps companies bring the power of strengths-based development into the workplace.<sup>1</sup> To honor this, Gallup introduced the "Don Clifton Strengths-Based Culture" Award. A panel of judges reviewed many companies and identified six that successfully integrate the Clifton StrengthsFinder methodology into its performance management framework as well as support employees in discovering and operating in their strengths.
